

Un peu de français – a little bit of French!

Below are some resources that you may like to use at home with your child. They are mainly subjects that have been taught in school so the work would just be revision – repetition is very important when learning a new language.

The simple conversations and the alphabet may be new for your child (or revision) so hopefully the resources will help you to learn them together. There are many more resources available online to support your learning too.

I would recommend a few shorter sessions of French rather than a longer session. Maybe 10-15 mins three times a week. Each week stick to the same topic area so that you can repeat, repeat, repeat!

Bonne Chance! (Good luck)
