

Find out which of the four countries the cities are in, label them on the map, then research one or two of those countries and write a short paragraph about them like the one on Toronto below:

Toronto is a city in Canada. Canada is a country located in the continent North America, which is in the northern Hemisphere. Toronto is home to Canada's tallest building, it is called the CN Tower and it is 553 metres (1,815 feet) high. Canada is located to the north of the United States of America and its capital city is Ottawa. Canada is the second biggest country in the world and approximately 37 million people live there. The most popular sport there is ice hockey and it is extremely cold in the winter.

**Countries**  
 Australia  
 Israel  
 Mali  
 U.S.A.

**Cities**  
 Jerusalem  
 Melbourne  
 New York  
 Timbuktu
